

Uganda Civil Aviation Authority

**Strategic Plan
(FY2025/26 – FY2029/30)**

UCAA/CORP/SPD-SP/26-30/01

VISION

**A Leading Provider of a Safe, Secure and Sustainable Civil Aviation
Service**

MISSION

**To Maintain the Highest Standards of Safety, Security and Service in Civil
Aviation**

June 2025

Foreword

The aviation industry is a critical pillar of Uganda's economic growth, connecting people, businesses, and markets while facilitating trade, tourism, and investment. The Uganda Civil Aviation Authority (UCAA) plays a pivotal role in ensuring the safety, security, efficiency, sustainability and development of our air transport sub-sector. This Strategic Plan for 2025/26 – 2029/30 comes at a transformative time, where effective global and regional aviation management demands innovation, resilience, and strategic foresight.

During this strategic period, the Authority will focus on enhancing service delivery and customer experience, strengthening safety, security, risk management, increasing operational efficiency and effectiveness, ensuring financial sustainability with Environmental, Social and Governance (ESG) integration, and improving multi-sectoral stakeholder coordination to drive industry growth and competitiveness.

With the rapid expansion of sectors such as oil and gas, tourism, and international trade, UCAA must position itself as a leader in air transport services. This strategic plan aligns with Uganda's Vision 2040, the National Development Plan (NDP IV), the Integrated Transport Infrastructure and Services (ITIS) Programme and the NRM Manifesto, ensuring that air transport remains a catalyst for national development. This will entail development of a highly interconnected transport network optimizing the use of rail, road, water and air transport modes.

I commend the UCAA Board, Management and all stakeholders for their dedication in shaping this strategic plan. As Government, we reaffirm our commitment to providing the necessary policy support, regulatory frameworks, and investments required to realize these ambitious objectives.

Together, let us propel Uganda's aviation industry to new heights of excellence, efficiency, and global competitiveness.

Preface

Uganda Civil Aviation Authority (UCAA) was established by an Act of Parliament (Cap 348) in 1991, as amended, with the main objective of promoting the safe, secure, regular and efficient use and development of civil aviation inside and outside Uganda. The broad functions of the Authority include the following:

- i) Advisory role to Government about civil aviation policy matters and international conventions and other functions as deemed necessary by the Minister responsible for aviation;
- ii) Regulation of safety, security, and doing business in air transport;
- iii) Management and development of national airports in the country; and
- iv) Provision of air traffic and navigation services.

To effectively execute these functions, UCAA is guided by well-documented plans, including the long-term Civil Aviation Master Plan, a medium-term Strategic Plan, and annual Business Plans, which align with international, regional, and national development plans.

Implementation of the ending Strategic Plan was greatly affected by COVID-19. Nevertheless, a number of achievements were registered by the Plan, including the following:

- i) ICAO Safety Audit for Uganda where a score of 72.42% was achieved
- ii) ICAO Security Audit for Uganda where a score of 81.60% was achieved
- iii) The National Aviation Safety Plan was developed
- iv) Re-modification of the Passenger Terminal Building at Entebbe International Airport
- v) New cargo centre (10,000 m²) with associated facilities was constructed
- vi) Rescue and Fire Fighting Services Station refurbished
- vii) New fuel farm and hydrant system constructed at Entebbe International Airport
- viii) Facilitated the licensing and certification of Uganda Airlines
- ix) Supported Uganda Airlines to gain new international routes
- x) Worked with the Ministry of Works and Transport to amend the CAA Act
- xi) Established the Consumer Protection Unit
- xii) Average revenue growth of 5.80% per annum
- xiii) Average International Passenger growth of 4.54% per annum.

The Five-Year Strategic Plan, covering the period 2025/26–2029/30, provides a roadmap for the Authority's operations and growth. Developed through a consultative and participatory approach, the Plan ensures inclusivity, incorporating the views of all stakeholders passionate about advancing Uganda's aviation industry.

This Plan is structured around five Strategic Objectives, each supported by a comprehensive work plan to guide implementation, performance

measurement, and resource allocation. The Authority requires an estimated UGX 3.74 trillion to execute the key components outlined within these objectives. The Strategic Plan will undergo a comprehensive review in the third year of implementation in line with the monitoring and evaluation framework.

UCAA is committed to upholding its core values of Teamwork, Integrity, Customer Focus, Professionalism, Innovation and Excellence in its operations, ensuring value for money in regulation, infrastructure development and service delivery. We reaffirm our dedication to working collaboratively with stakeholders to foster a robust aviation sector that meets global standards.

On behalf of the Board and Management, we extend our sincere appreciation to the Ministry of Works and Transport (MoWT), the National Planning Authority (NPA), staff and all our esteemed stakeholders for their invaluable contribution and guidance in the development of this Strategic Plan. We invite continued collaboration and support as we implement this strategic plan to ensure a safer, more efficient, and sustainable aviation industry for Uganda.

Executive Summary

The Uganda Civil Aviation Authority Act Cap 348 of the Laws of Uganda, requires the Authority to have a 5 – Year Strategic Plan and Annual Business Plans, including financial targets and performance indicators, to guide its investments, operations and activities.

The Uganda Civil Aviation Authority (UCAA) Strategic Plan for the period 2025/26 – 2029/30 is a comprehensive roadmap designed to navigate a transformative era in global and regional aviation, recognizing air transport as a critical enabler of Uganda's economic growth—facilitating trade, tourism, and investment. This plan positions UCAA to enhance its pivotal role in ensuring a safe, secure, efficient, sustainable and developed air transport sub-sector. It aligns with national aspirations, including Uganda Vision 2040 and NDP IV, and addresses the dynamic demands of an aviation industry characterized by technological advancements, heightened sustainability imperatives and increased regional competition.

UCAA's cardinal objective is to promote the safe, secure, regular and efficient use and development of civil aviation inside and outside Uganda. The Authority will therefore work hard to achieve the goal **“To improve safety, security, reliability and quality of service in civil aviation”**

Accordingly, the plan prioritizes the following interconnected strategic objectives:

- a) To develop, harmonize and ensure compliance with civil aviation policy, legal and regulatory framework

- b) To develop, upgrade and maintain sustainable aviation infrastructure and services
- c) To build and strengthen an economically viable civil aviation industry
- d) To strengthen UCAA's institutional capacity
- e) To Foster Strategic Collaboration and Partnerships.

Performance (at output level) of the ending Strategic Plan (FY2020/21 – 2024/25), as at 31st December 2024, was as follows:

- a) 69% of activities was completed
- b) 17% of activities was still work in progress expected to be completed by 30th June 2025
- c) 10% was not achieved (not started)
- d) 04% was deferred to the next plan period (FY2025/26 to 2029/30).

By close of the planning period (FY2020/21 to 2024/25) under review, it is envisaged that the overall performance of this plan will be above 85%.

The following are some of the major accomplishments of the Strategic Plan:

- a) ICAO Safety Audit for Uganda where a score of 72.42% was achieved
- b) ICAO Security Audit for Uganda where a score of 81.60% was achieved
- c) National Aviation Safety Plan developed
- d) Re-modification of the existing Passenger Terminal Building at EIA
- e) New cargo center (10,000 m²) with associated facilities constructed
- f) Constructed a new passenger terminal building
- g) Strengthened and rehabilitated runways 17/35 and 12/30 and their associated taxiways
- h) Rehabilitated and extended Apron 1
- i) Rehabilitated Aprons 2 and 4
- j) Rescue and Fire Fighting Services Station refurbished
- k) New fuel farm and hydrant system constructed at EIA
- l) Expedited the licensing and certification of Uganda Airlines
- m) Supported Uganda Airlines to gain new international routes

- n) CAA Act amended
- o) Consumer Protection Unit established
- p) Average revenue growth of 5.80% per annum
- q) Average International Passenger growth of 4.54% per annum.

Air Traffic at EIA is estimated to grow as follows:

- a) Passengers (International, Domestic, Transit): 5.8%
- b) Cargo (Imports, Exports): 5.3%
- c) Commercial Aircraft Movements: 3.0%
- d) Overflights: 5.0%.

The cost drivers for the new Strategic Plan will include among others:

- a) Upgrade and expansion of Entebbe International Airport – Phase 2
- b) Upgrade and expansion of a number of regional airports
- c) Operationalization of Kabalega International Airport.

The total cost of the Strategic Plan for the five-year period is UGX 4.7 Tn. The Plan will be funded by internal revenue collected by UCAA worth UGX 2.2 Tn and an external fund of approximately UGX 988 Bn (Expansion and upgrade of EIA – Phase 2) giving a funding gap of 1.5 Tn. The main contributor to the funding gap is the upgrade of regional airports with a cost of UGX968 Bn and running of the same airports at a cost of UGX129 Bn. This gap is expected to be covered through funding from Government and other Development Partners.

Effective implementation of the new Strategic Plan will be enabled by:

- a) A robust governance structure and stakeholder engagement
- b) Prudent financial management and resource mobilization
- c) A comprehensive monitoring and evaluation framework to track progress and ensure accountability (There will be mid-term and end-term reviews of the Strategic Plan)
- d) Better measurement and management of staff performance.

Additionally, the Authority will ensure separation of the regulatory function from service provision and operations in order to eliminate conflict of interest caused by having all these functions under the same management. This will make the resultant Entities independent, strong and efficient in execution of their mandates.

The UCAA's Strategic Plan 2025/26-2029/30 represents a commitment to advancing Uganda's aviation sector through strategic investments, operational excellence, and collaborative partnerships. Its successful execution will be pivotal in driving economic growth, enhancing connectivity, and positioning Uganda as a key player in the regional and global aviation landscape.

Strategic Direction for FY 2025/26 – 2029/30

The agenda for UCAA for the next five years (FY 2025/26 – FY2029/30) is defined by its Strategic Framework as illustrated below:

Overall Goal

UCAA's cardinal objective is to promote the safe, secure, regular and efficient use and development of civil aviation inside and outside Uganda. The Authority will therefore pursue the following goal:

To Improve Safety, Security, Reliability and Quality of Service in Civil Aviation

Every UCAA employee shall be required to contribute to this overall goal.

3.1 Strategic Objectives

In pursuit of the Overall Goal, the following Strategic Objectives will set the agenda of the Authority for the next five years:

- a) To develop, harmonize and ensure compliance with civil aviation policy, legal and regulatory framework
- b) To develop, upgrade and maintain sustainable aviation infrastructure and services
- c) To build and strengthen an economically viable civil aviation industry
- d) To strengthen UCAA's institutional capacity
- e) To Foster Strategic Collaboration and Partnerships.

UCAA shall ensure that all staff understand and own the strategic focus of the Authority so that they all work as a team to achieve its overall goal and strategic objectives.

1.1 Strategic Objectives, Key outcomes, and link to NDP IV

Table 1: Strategic Objectives, Key outcomes, and link to NDP IV

UCAA Strategic Objectives	Outcomes	ITIS-Programme objectives (NDPIV)
1. To develop, upgrade and maintain sustainable aviation infrastructure and services	Improved aviation service delivery	To strengthen transport asset management
2. Foster strategic Collaboration and Partnerships	Improved multisectoral stakeholder management for industry growth	To develop an inter-modal and seamless transport infrastructure and services
3. To develop, harmonize and ensure compliance with civil aviation policy, legal and regulatory framework	Enhanced aviation safety and security	To strengthen governance and management of the Programme
4. To strengthen UCAA's institutional capacity	Increased operational efficiency	
5. To build and strengthen an economically viable civil aviation industry	Enhanced Financial sustainability and ESG Integrated in aviation operations	To reduce the cost of transport infrastructure development and maintenance

1.2 Strategic Objectives, Initiatives, and Outcomes

1.2.1 Objective 1: Develop, Upgrade, and Maintain Sustainable Aviation Infrastructure and Services

Strategic Outcome: Improved service delivery, customer experience, and increased operational efficiency.

Table 2: Objective 1: Develop, Upgrade, and Maintain Sustainable Aviation Infrastructure services

Strategic Initiatives	Expected Results
1. Enhance capacity to handle current and future Air traffic demand.	1. Increased capacity 2. Improved passenger experience 3. Improved traffic movement and connectivity 4. Reduced delays 5. Increased productivity 6. Reduced risk of incidents
2. Increase Utilization and Integration of Technology	1. Enhanced operational efficiency (i.e. reduced processing time and increased productivity) 2. Increased operational capacity 3. Cost savings 4. Increased innovation and service quality 5. Reduced risk of human error 6. Enhanced data management systems protection.
4. Upgrade and Maintain Air Navigation Services Infrastructure.	1. Enhanced airspace management and utilization. 2. Improved air traffic flow. 3. Reduced risks of accidents and incidents. 4. Enhanced safety, real-time situational awareness, and ground-to-air communication 5. Reduced air traffic controller workload.

	6. More accurate and timely information
5. Enhance connectivity between international and domestic airports.	1. Increased domestic traffic. 2. Improved infrastructure at regional airports. 3. Reduced travel times 4. Increased tourism activity
6. Integrate Environmental, Social, and Governance (ESG) and Sustainability Principles into Operations	1. Better environmental performance and sustainability metrics. 2. Enhanced corporate reputation and stakeholder trust. 3. Alignment with national and international sustainability goals.
7. Strengthen Environment Protection, Climate Change Adaptation, and Resilience	1. Enhanced infrastructure resilience 2. Increased organizational preparedness and resilience to changes in the environment 3. Reduced carbon emissions

1.2.2 Objective 2: To develop, harmonize and ensure compliance with civil aviation policy, legal and regulatory framework

Strategic Outcome: Enhanced safety, security, and risk management.

Table 3: Objective 2: To develop, harmonize and ensure compliance with civil aviation policy, legal and regulatory framework

Strategic Initiatives	Expected Results
1. Strengthen Regulatory Frameworks	1. Improved safety 2. Enhanced security 3. Increased confidence 4. A robust regulatory and compliance framework.

	5. Clear guidelines supporting safe and secure operations.
2. Enhance Compliance Monitoring Systems	1. Real time compliance monitoring. 2. Timely identification and resolution of non-compliance issues. 3. Effective follow-up of corrective actions 4. improved oversight capacity
4. Strengthen Risk Oversight	1. Reduced accidents and incidents 2. Proactive risk identification and mitigation 3. Enhanced operational resilience 4. Increased stakeholder confidence
5. Manage a Smooth Transition to Decoupled Regulatory and Operational Functions	1. Transition roadmap 2. Distinct Regulatory and operational functions

1.2.3 Objective 3: Strengthen UCAA's Institutional Capacity

Strategic Outcome: Increased operational efficiency and effectiveness; improved service delivery and customer experience.

Table 4: Objective 3: Strengthen UCAA's Institutional Capacity

Strategic Initiatives	Expected Results
1. Enhance Competencies for UCAA and other aviation support staff	1. A highly qualified, skilled, and agile aviation workforce. 2. Improved operational performance.

2. Strengthen Internal Processes and Governance	1. Faster decision-making and reduced delays. 2. Transparent, efficient internal operations and delivery 3. Enhanced governance and accountability.
3. Strengthen Monitoring and Evaluation Systems	1. Data driven decision making 2. Improved performance tracking 3. Benefits from lessons learnt. 4. Timely actions and accurate reporting. 5. improved accountability and transparency 6. improved project management
4. Establish Robust Information and Data Systems	1. Enhanced real-time data availability. 2. Improved communication and information sharing with industry stakeholders.
5. Institute Performance-Based Organizational Culture	1. Strong teamwork and leadership that drives the achievement of strategic mission and vision. 2. A unified, high-performance organizational culture.

1.2.4 Objective 4: To build and strengthen an economically viable civil aviation industry

Strategic Outcome: Enhanced financial sustainability and ESG integration in aviation operations.

Table 5: Objective 4: To build and strengthen an economically viable civil aviation industry

Strategic Initiatives	Expected Results
1. Diversify Revenue Streams	1. Increased contribution of non-aeronautical revenue. 2. Reduced dependence on aeronautical revenue
2. Optimize Financial Management and Efficiency	1. Reduced operating costs 2. Improved resource allocation in alignment with strategic priorities 3. Improved fiscal stability, cash flow management, revenue collection, and debt management.
3. Foster Community and National Economic Sustainability	1. Increased contribution of aviation to national development 2. Enhanced participation of aviation in local Economic activities 3. Strengthened supply chains and national value chains 4. Enhanced public support and societal impact

1.2.5 Objective 5: Foster Strategic Collaboration and Partnerships

Strategic Outcome: Improved multi-sectoral stakeholder coordination for industry growth.

Table 6: Objective 5 - Foster Strategic Collaboration and Partnerships

Strategic Initiatives	Expected Results
1. Establish Inter-Agency Coordination Mechanisms Improve collaboration with other relevant government entities and transport agencies for coherent policy implementation. i. Set up and participate in inter-agency committees and task forces to develop an intermodal transport system. ii. Develop joint strategic initiatives with other government and non-government bodies, and sectors iii. Facilitate regular coordination meetings, awareness programs, and information sharing. iv. Support import and export promotion and government development priorities under the Agriculture, Tourism, Minerals and Science & Technology (ATMS) approach under the NDP IV	1. Improved policy coherence and streamlined regulatory processes. 2. Better-integrated intermodal transport system and services. 3. Support the strengthening and expansion of the National Airline operations and connectivity.
2. Enhance Regional and International Partnerships Expand collaborations with global and international aviation bodies and neighbouring countries i. Formalize partnerships through MoUs with regional and international organizations. ii. Actively participate in global and regional regulatory or technical aviation bodies, seminars, and conferences. iii. Initiate joint projects with international and regional partners.	1. Strengthened international cooperation and policy alignment. 2. Expanded market opportunities and regional connectivity.
3. Initiate and Leverage Public-Private Partnerships (PPPs) Utilize PPPs to access additional investment and share operational risks.	1. Increased private-sector investment and partnerships, and shared risk models.

i. Develop a clear framework for PPPs in aviation infrastructure and services. ii. Identify and engage with potential private sector partners. iii. Launch pilot projects to refine PPP models.	2. Accelerated and efficient implementation and enhanced service delivery.
4. Strengthen Local Stakeholder Engagement Build mutually beneficial relationships with local communities, government, and industry stakeholders. i. Hold regular stakeholder consultation forums. ii. Develop dedicated communication channels for information sharing and feedback. iii. Implement stakeholder satisfaction surveys. iv. Advise the Government on aviation matters	1. Increased local stakeholder satisfaction, awareness, and support. 2. Enhanced alignment of services with community needs. 3. Enhanced communication and information sharing.
5. Cultivate and establish a Collaborative Innovation culture Encourage cross-sector innovation and shared learning to drive industry improvement. v. Launch joint innovation projects with academia, research, and industry partners. vi. Establish platforms for sharing information and best practices, e.g., Automated passenger information capture and feedback system, as well as generation of real-time information from stakeholders vii. Incentivize collaborative projects through recognition programs. viii. Improve investment in technology to enhance innovation.	1. Enhanced innovation and shared learning. 2. Improved efficiency and productivity. 3. Greater responsiveness to emerging challenges and opportunities.

1.3 Critical Success Factors (CSFs)

The Uganda Civil Aviation Authority (UCAA) is firmly committed to realizing its strategic objectives for the period 2024/25–2029/30. To support this ambition, several Critical Success Factors (CSFs) have been identified through comprehensive stakeholder consultations and in-depth analysis of core operational domains. These CSFs are strategically aligned with UCAA's vision, mission, and core values, as well as with national priorities and international aviation standards and policies. They serve as foundational pillars for achieving organizational excellence and driving sustainable growth within Uganda's aviation sector.

Figure 1: Critical Success Factors

The table below presents each CSF along with its specific area of focus, its strategic significance to UCAA's overall success, and the corresponding Key Performance Indicators (KPIs) to guide effective monitoring and evaluation.

Table 7: Explanation of the Critical Success Factors

Key Areas	CSF	Area of Focus	Why Critical
1. Safety & Security	A proactive and effective safety culture and robust state safety oversight system	Strengthened State safety system (SSP), SMS and SeMS implementation, and continuous risk management system.	Minimizes incidents and occurrences, improves audit index and scores, and ensures a strong aviation safety environment.
	A proactive and effective safety culture, and robust state security oversight system, enhanced infrastructure and technology at all airports	Upgraded security equipment, surveillance systems, access control, security infrastructure and deploying advanced security technologies.	Address aviation security threats, mitigate acts of unlawful interference, and ensure the safety and security of passengers, staff, and facilities.
2. Regulatory Compliance and Oversight	Strengthened regulatory oversight and enforcement	Implementation of risk-based oversight systems and effective enforcement of regulations.	Ensures compliance with national, regional, and international aviation requirements and standards, maintaining a complaint, safe, secure and efficient aviation sector
	Streamlined and digitized regulatory processes	Online licensing, certification and permit issuance	To improve efficiency and transparency in regulatory and oversight processes.
3. Infrastructure Development and Modernization	Timely and efficient implementation of airport infrastructure projects	Construction and expansion of airport terminals, runways, and other facilities.	Accommodate traffic growth (passenger and cargo), support economic development, and enhance Uganda's regional hub position.
	Modernized airport infrastructure with	Integration of smart technologies for passenger processing,	To improve passenger experience, enhance operational efficiency, and

	advanced technologies	baggage handling, and airside operations.	reduce operational costs
4. Air Navigation Services	Enhanced air traffic management (ATM) systems and procedures	Implementation of Performance-Based Navigation (PBN), Automatic Dependent Surveillance-Broadcast (ADS-B), and other advanced ATM technologies.	Optimize airspace utilization, reduce delays, and maintain safety.
	Reliable and resilient air navigation infrastructure	Redundancy of critical systems and implementation of robust maintenance procedures	To minimize disruptions to air navigation services and ensure continuous operations
5. Human Capital Development	Retention of a highly skilled and motivated workforce	Implementation of comprehensive training programs, competitive compensation packages, and career development opportunities.	Ensure UCAA has the necessary expertise and capacity to support its strategic goals.
	A high-performance culture	Promoting a culture of performance, accountability, and continuous improvement.	Enhance organizational effectiveness and align staff with UCAA's goals.
6. Financial Sustainability	A financially sustainable authority with optimized resources	Diversifying revenue streams, optimizing cost management, competitive pricing, and securing funding.	To reduce reliance on traditional revenue sources and ensure financial stability for investments in infrastructure, technology, and human resources.
7. Stakeholder Engagement and Collaboration	Enhanced stakeholder collaboration	Effective engagement and collaboration with government agencies, airlines,	To foster a supportive environment, align efforts, and ensure that UCAA's activities are coordinated with

		international bodies, and other relevant parties.	the broader aviation ecosystem
8. Technology adoption and innovation	Technology adoption and innovation; a culture of innovation and implementing digital solutions	Leveraging technology to improve efficiency, safety, and security.	To ensure UCAA remains at the forefront of the aviation industry.
9. Customer Experience	Improved customer experience and service delivery	Enhancing the experience of passengers by improving the quality of services and facilities for passengers, airlines, and other users.	To meet customer needs and expectations and use customer feedback to drive service improvements.

Table 8: M&E Performance Indicator Metrics

Strategic Objective	Performance Indicator	Baseline FY2024/25	Target FY2029/30	Data Source	Reporting Frequency	Responsible Unit
1. Develop, Upgrade, and Maintain Sustainable Aviation Infrastructure and Services	Airport and Air Navigation Infrastructure Projects (Technology, airports) on Schedule – percentage of major planned projects (e.g. Entebbe upgrade and expansion Phase 2, regional airport upgrades, CNS/ATM System upgrades) completed on time Traffic Growth (Passenger and Cargo) Technology Adoption	Number of new projects in the pipeline Completion of Phase I projects	100% of Phase 2 projects completed by 2029/30 (per plan milestones) - Growth in traffic as projected in Appendix 9 - Increased automation for improvements in passenger and cargo handling - Improved voice and data communication, navigation and surveillance	- Project progress reports - Engineering Department records - Air traffic reports	- Quarterly (monitoring) - Annual	- Directorate of Airports & Aviation Security - Directorate of Air Navigation Services - Directorate of Finance - Strategic Planning Department
	- Reduction in Aviation CO₂ Emissions – percentage reduction in CO₂ emissions intensity from aviation operations under UCAA oversight (e.g. per flight or airport operation) - Reduce Airport Carbon Footprint		10% reduction in emissions intensity by 2029/30 (compared to baseline)	- UCAA environmental audits - Aviation emissions inventory - CORSIA reports	Annual	- Directorate of Airports and Aviation Security - Directorate of Safety, Security and Economic Regulation

Strategic Objective	Performance Indicator	Baseline FY2024/25	Target FY2029/30	Data Source	Reporting Frequency	Responsible Unit
2. Develop, harmonize and ensure compliance with civil aviation policy, legal and regulatory framework	- Compliance to ICAO SARPS - Regulatory Instruments Updated/Developed - Enforcement of KPI's	72.42% (2023 safety audit) 81.6% (2023 security audit) - Updated documents (2019–2024) - Acceptable Number of Risk-Based Audits	≥85% (no significant safety concerns; above African avg.) 10 additional regulations/guidelines in place by 2029/30 100% Risk Based Audits on the entities regulated by UCAA	- ICAO USOAP audit reports; UCAA safety oversight records - Regulatory review reports; Uganda Gazette (for published regulations) - Internal compliance audit reports	- Annually (internal monitoring) - ICAO audit cycle (6-year) - Annual - Quarterly	All Directorates
3. Strengthen UCAA's Institutional Capacity	- Staff Capacity Development Index (staff competency assessments) - Operational efficiency (Improved aircraft, maintenance, turnaround time)	60% (2024 estimate)	- Number of development hours and assessments 85% (significant improvement in skills and key positions approved and filled by 2030)	- HR training records - Assessment reports	Annual	All Directorates led by Human Resource & Administration Directorate.

Strategic Objective	Performance Indicator	Baseline FY2024/25	Target FY2029/30	Data Source	Reporting Frequency	Responsible Unit
	Integrate the BSC for staff performance management					
4. Build and strengthen an economically viable civil aviation industry	Develop new sources of non-aeronautical revenues	85/15	70/30	- Financial Reports - Air traffic passenger and cargo reports	Annual	- Directorate of Finance - Marketing and Commercial Services Department - Directorate of Airports and Aviation Security
5. Foster Strategic Collaboration and Partnerships	- Stakeholder Satisfaction Rating – satisfaction index (percent) from surveys of key stakeholders - PPPs for synchronized training, multimodal transport - Number of local, regional and international partnerships	Baseline to be established in 2025 survey	80% satisfaction level - Regional Aviation Training Center - Number of MOUs - Additional commercially viable routes	- Stakeholder survey reports; client feedback forms - MOUs, Letter of intent, bilateral and multilateral agreements	Ongoing	- DG - DDG - Directors

Strategic Objective	Performance Indicator	Baseline FY2024/25	Target FY2029/30	Data Source	Reporting Frequency	Responsible Unit
	New commercially viable routes
